Fira 2018

Ajuntament de Sóller

Saluda

Agräiment

We are here already ...the aroma of cooked snails and the smell of powder are already heard and felt

We already feel the thunder of the Trabucks and see the masked faces. The Fira and the Firó arrive as they do every year and invite us to live life for a few days and to share with family and friends unforgettable moments. Look carefully at the proposed activities we have programmed, we are sure you will find events and activities that you like. It is about enjoying the party as best possible, taking into account respect for our neighborhoods and trying to "do it but not over-do it". We ask everyone to stay safe... so that together we can all enjoy our party.

Behind the Fira there is a huge amount of work and it would not be possible to carry on without the unending work of the collectives, who voluntarily dedicate many hours, to make Firó Monday better year on year. We must also thank the work done by the workers of our City Council, as well as the Municipal Police, Civil Protection and the Civil Guard, who plan everything, always thinking about the safety of the participants. And last but not least, we recognize all associations, organizations and sports clubs, who participate in the festival organizing activities for everyone. After all, we are all Sollerics and we all want our Fair to be the best. So we wish luck to the new characters of the Firó, who will experience a great deal over the coming days, as we prepare the outfits and of peasants, farmers, and Moors.

Live the Firá! Live the Firó!
